**Midtown Towing of Miami, Inc.**

*Since ancient times, man has needed to move heavy loads for different purposes and for the construction of large works that today are in question for many people.*

The **pyramids of Egypt** are, of all the vestiges bequeathed by the Egyptians of antiquity, the most portentous and emblematic recognized. For its construction, according to one of the hypotheses that is closest to the subject in question, **-Towing in Miami its history-** some wooden cylinders were used, which were tied to each side of the faces of the heavy blocks of rock, and joined by a system of ropes, special knots made it possible to roll the heavy loads...

With the appearance of the **wheel** in the **Middle Kingdom**, the wooden rollers, the ramps that were the first machines that provided man with ideas that gave rise to the specialization and subsequent development of Trailers, machines that currently make up the Rescue fleets that in many parts of the world operate 24 hours a day to help customers. These machines are equipped with specialized lifting systems, traction used for countless rescues and large-scale load movements.

One of the television programs that **presented the trade** on the television screen was **"Los remolcadores de South Beach"**, a television series that aired on the **TruTV network, on July 20, 2011**, a reality television program, created by **Jennifer López**.

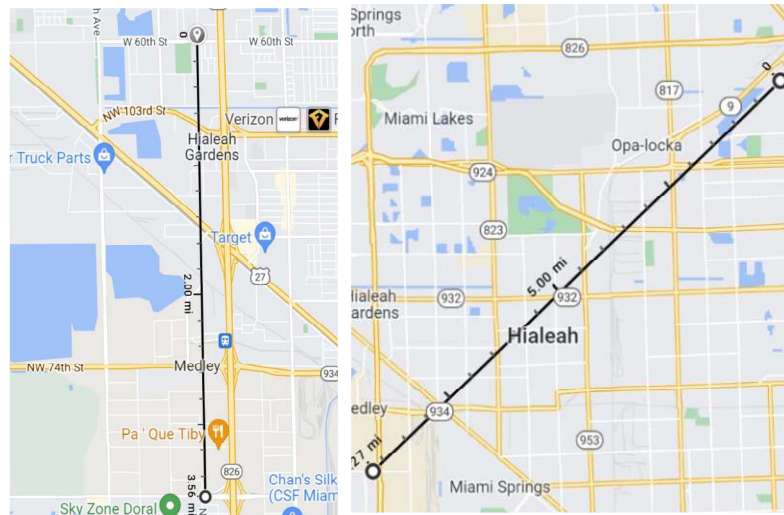

In the **history of Florida** due to its marked growth in recent decades, it has generated the need to have **towing companies**. These towing companies, with their teams, have been instrumental in moving disable vehicles and debris that obstruct the major highways.

The operation of **Midtown Towing of Miami, Inc.** began in **1987** and it was founded by **Lauraine Lichtman** in Miami, Florida. Since the company began to work, it has focused on rescue and rapped response in the
